NOVELTIES

Cesto

Cesto means in Spanish basket case. The inspiration for the Cesto collection comes from the shape of this object, typical in many cultures, which is used to collect or store other objects.

They have a characteristic shape, and are usually made of rattan or other natural fibers. The Cesto chair has a unique shape. Its main feature is its complex appearance, within the simplicity of its construction.

Design: Pablo Regano

Cesto

Jara

The Jara collection is born around a basic silhouette. This basic shape of the one-piece seat with the subtle shape of the petals of the jara, gives the characteristic to the entire collection.

The silhouette of the seat generates subtle curves at the ends of the seat and the backrest that give it a great aesthetic differentiation.

Design: Pablo Regano

Jara

Lover lounge

Lover Lounge is a new family of lounge armchair and sofa by Spanish designer Pablo Regano, which was designed as an addition to the Lover collection.

Pablo was inspired to create this collection by Colombian artist Fernando Botero's paintings and sculptures, namely his painting "Lovers". The disproportions of the objects in Batero's work were extrapolated into the design of the furniture, giving the items of the collection a pleasing curvaceous shape and a special softness and comfort in use.

Design: Pablo Regano

The products are available in any fabric and color

Love lounge

Tap Tap

Tap Tap is a furniture piece in between a chair and a stool for everyday use. Through its unusual low backrest which supports a comfortable sitting the chair allows different seating positions and can be used wherever you need it.

The Design shows a playful conception of geometric shapes and proportions and gives the chair an unconventional character.

Design: Moritz Putzier

Tap Tap

Eddie

Eddie is a young and modern appearing furniture piece for everyday use. The concept of the chair adapts the idea of our new living environment through his stackable feature. The flexible character makes Eddie a chair for your home as well as office or public spaces.

The design shows a playful conception of geometric shapes and proportions and gives the chair a friendly character with high recognition value. The Eddie chair is made of solid and moulded wood parts with colour stained surface finishing.

Design: Moritz Putzier

Nid

The name NID forms from the French "nest" – a sofa that creates a friendly cozy atmosphere, separating a person from the hustle and bustle, helping to focus on a work or conversation. Closed, rounded shapes protect you from the outside world, and at the same time encourage communication within.

NID created for restaurants, lobbies, and waiting areas, they form confidential and socially distancing compositions in response to the new challenges of the times. With the help of NID, you can create separate secluded zones within a large space, delimit, and zone.

Design: Milodamalo

The products are available in any fabric and color.
